EXECUTIVE PROFILE

Enterprise technology and transformation leader with 23+ years directing complex, cross-functional programmes spanning digital transformation, AI strategy, ERP platforms, cloud migration, and enterprise-wide delivery across global organisations. Provides strategic, functional, and operational oversight of technology portfolios — owning roadmaps, governance frameworks, delivery priorities, and service standards in alignment with business strategy and executive expectations.

Track record leading USD 40M+ multi-country programmes, governing enterprise platforms (Oracle, Dynamics 365, IFS, SAP) across 100+ business units in 27 countries, and driving measurable outcomes — 30% cost reduction, 85% demand-to-delivery standardisation, and AI/IoT patent grant. Currently advancing a Master of Data Science & AI (Deakin University) and PG in AI/ML (UT Austin). PMP, SAFe 5, MSP, and ITIL certified. UAE-based, available immediately.

SIGNATURE ACHIEVEMENTS

- Governed an enterprise-wide, 8-project, USD 40M+ ERP and digital transformation programme across 27 countries for a government-linked group — roadmap, governance, delivery priorities, risk, vendor management and executive reporting; standardised demand-to-delivery by 85%.
- Led full-cycle Oracle (EBS) and IFS ERP implementation, enhancement and multi-country support across 15 countries and 100+ business units — configuration, modules, workflows, testing, deployment, operational readiness and service management.
- Drove enterprise digital initiatives — AI strategy, automation, workflow optimisation and data-quality programmes — cutting operating cost 30% and lifting user adoption across Finance, Procurement, Supply Chain and HR.
- Managed enterprise platforms for a 500K+ customer B2C operation — delivery, governance, controls and release management across Finance, Sales and integration workstreams.
- Granted AI/IoT patent (CarHealX) — designed and delivered an enterprise AI product from concept to production.

LEADERSHIP CAPABILITIES

- **Digital Transformation:** Strategy, roadmaps, operating models, business-case development, adoption
- **AI & Data Strategy:** Use-case prioritisation, AI delivery planning, data governance, measurable outcomes
- **Governance & Controls:** Frameworks, policies, change management, audit, compliance, risk registers
- **Programme & Portfolio Delivery:** End-to-end delivery, governance, risk, multi-stream coordination, PMO
- **Enterprise Platforms & ERP:** Oracle EBS, Dynamics 365, IFS, SAP, cloud migration, integrations
- **Vendor & SI Management:** System integrators, MSPs, SOW/SLA, contractual and quality assurance

- **Service Management:** ITIL, incidents, service levels, operational readiness, continuous improvement
- **Stakeholder Engagement:** C-suite, CFO, steering committees, cross-functional and distributed teams

EXECUTIVE EXPERIENCE

Consultant — Digital Transformation & Enterprise Technology

07/2026 – Present

Self-employed, Dubai — Advisory on transformation, enterprise platforms, AI strategy & programme delivery

- Advising enterprises on digital transformation strategy, enterprise platform governance, AI/data initiatives and programme delivery.
- Advancing a Master of Data Science & AI (Deakin University) and PG in AI/ML (University of Texas at Austin).

Senior Technical Programme & Project Manager — Enterprise Applications & Transformation

10/2022 – 06/2026

Xpress Automation (XA Group) — IT services & enterprise-applications consultancy, Dubai

- Led enterprise technology delivery and service management (Oracle, Microsoft Dynamics 365, ERPNext) — governance, configuration, enhancements, testing, deployment and operational readiness; cut operating cost 30%.
- Drove AI and automation initiatives — workflow optimisation, process standardisation and data-quality programmes.
- Managed vendors, system integrators and MSPs to SOW/SLA; enforced ERP policies, controls and change management.
- Delivered CarHealX IoT/AI platform from concept to production; granted AI/IoT patent.

Senior Project Manager — Enterprise Platforms & Digital Delivery

04/2019 – 03/2022

Ewings — High-volume B2C e-commerce & consumer platform operator, Dubai (500K+ customers)

- Owned delivery and service management of enterprise and customer-facing platforms — Finance, Sales and integration workstreams — with governance, controls and release management.
- Managed budgets, risk, distributed/partner teams and vendor delivery with steering-level reporting.

Technology Programme & Project Manager — USD 40M+ (27 Countries)

07/2015 – 03/2019

UASC (now Hapag-Lloyd) — GCC sovereign-state-owned container shipping & logistics group

- Governed an enterprise-wide, 8-project, USD 40M+ Oracle ERP and technology programme across 27 countries — roadmap, governance, risk register, service standards, SI management and executive reporting.
- Integrated Finance, IT, supply-chain and business stakeholders; managed system integrators to SOW/SLA; oversaw data migration, cutover and operational readiness.

Deputy General Manager (ERP & Technology)

09/2014 – 05/2015

Omega Healthcare — Global healthcare BPO/KPO group; 12,000+ employees

- Delivered full-cycle HR/HRMS ERP (RAMCO) for 8,000+ employees across three geographies — configuration, data migration, testing, cutover, operational readiness and support.

Global Systems & Roll-Out Manager — Oracle & IFS ERP

09/2000 – 11/2013

Jotun — Global paints, coatings & chemicals manufacturer; 100+ countries, 7,000+ employees

- Led full-cycle Oracle (EBS) and IFS ERP implementation and multi-country roll-out across 15 countries / 100+ business units — Finance, Procurement, Manufacturing, Supply Chain, Warehouse, Sales and Distribution.
- Managed implementation partners, standardised processes and controls, and ran ongoing support via a global shared-services hub (ITIL).
